

Investment Update for the Generate KiwiSaver Scheme: Stepping Stones Growth 65+ years old investment option

31 December 2021

This investment update was first made publicly available on 14 February 2022.

What is the purpose of this update?

This document tells you how the Stepping Stones Growth 65+ years old investment option has performed and what fees were charged. The document will help you to compare the investment option with other investment options and funds. Generate Investment Management Ltd prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this investment option

The objective of the Stepping Stones Growth 65+ years old investment option is to provide a conservative investment return through investment in a portfolio of actively managed cash, fixed interest, property (including aged care) and infrastructure assets¹, Australasian equities and international equities. The investment option has a low to medium level of volatility.

	Stepping Stones Growth 65+
Total value of the investment option	\$1,313,937
Number of investors in the investment option	28
The date the investment option started	6 September 2016

What are the risks of investing?

Risk indicator for the Stepping Stones Growth 65+ years old investment option:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the investment option's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way. To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at <https://www.generatewealth.co.nz/survey>. Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of an investment option's future performance. The risk indicator is based on the returns data for the last five years. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future investment updates.

See the product disclosure statement (PDS) for more information about the risks associated with investing in this investment option.

How has the investment option performed?

	5 year p.a.	Past year
Annual return (after deductions for charges and tax)	5.71%	2.97%
Annual return (after deductions for charges but before tax)	6.55%	3.09%
Market index annual return (reflects no deduction for charges and tax)	7.01%	1.51%

The market index return reflects a composite of benchmark index returns, weighted for the investment option's target asset allocation, being the investment option's relevant benchmark since inception. All of the share market benchmark indices used include dividends but do not include imputation credits.

Additional information about the market index is available in the SIPO on the register at business.govt.nz/disclose.

Annual return graph

This shows the return after fund charges and tax for each year ending 31 March since the investment option started. The last bar shows the average annual return since the investment option started, up to 31 December 2021.

Important: This does not tell you how the investment option will perform in the future. Returns in this graph are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower. Benchmark returns in the graph are before the deduction of tax.

What fees are investors charged?

Investors in the Stepping Stones Growth 65+ years old investment option are charged fund charges. In the year to 31 March 2021 these were:

	% of net asset value
Total fund charges	1.21%
Which are made up of:	
Total management and administration charges including:	
Manager's basic fee	1.00%
Other management and administration charges	0.21%
Total performance based fees	0.00%
Other charges	\$ amount per investor
Membership Fee ²	\$36.00 per year

Investors are not currently charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the PDS for more information about fees.

Small differences in fees and charges can have a big impact on your investment over the long term.

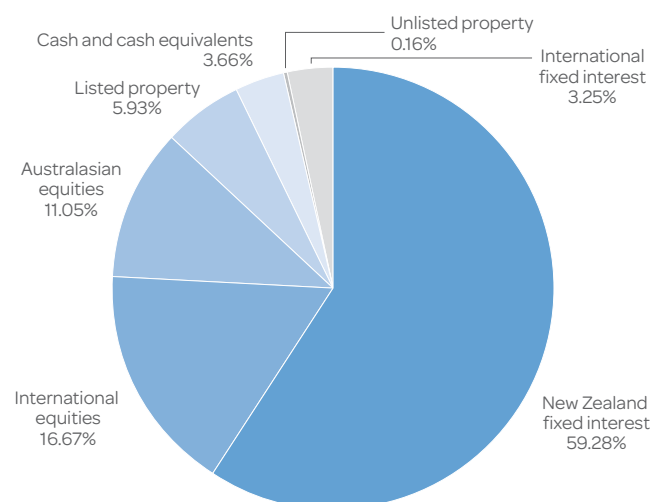

Example of how this applies to an investor

Hannah had \$10,000 in the investment option at the start of the year and did not make any further contributions. At the end of the year, Hannah received a return after fund charges were deducted of \$297 (that is 2.97% of her initial \$10,000). Hannah also paid \$36 in other charges. This gives Hannah a total return after tax of \$261 for the year.

Further information

You can also obtain this information, the PDS for the Generate KiwiSaver Scheme, and some additional information from the offer register at business.govt.nz/disclose.

Notes

1. The Manager takes a broad view of what constitutes infrastructure assets. See the SIPO for further information.
2. Membership fees are the monthly fixed dollar charges for membership in the Generate KiwiSaver Scheme. You will pay only \$3 each month even if you are invested in multiple funds within the Generate KiwiSaver Scheme.
3. International equities are made up of directly held equity investments.
4. 'Cash and cash equivalents' includes the value of foreign exchange hedging derivatives related to the fund's off-shore investments.
5. Listed property includes investments in aged care companies.
6. For any unlisted property and infrastructure investments, the Manager needs approval from the Supervisor prior to investment.
7. Australasian equities includes an investment in unlisted New Zealand equities.
