

Investment Update for the Generate KiwiSaver Scheme: Stepping Stones Growth 0-50 years old investment option

30 June 2021

This investment update was first made publicly available on 28 July 2021.

What is the purpose of this update?

This document tells you how the Stepping Stones Growth 0-50 years old investment option has performed and what fees were charged. The document will help you to compare the investment option with other investment options and funds. Generate Investment Management Ltd prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this investment option

The objective of the Stepping Stones Growth 0-50 years old investment option is to provide a growth investment return over the long-term through investment in a portfolio of actively managed cash, fixed interest, property (including aged care) and infrastructure assets¹, Australasian equities and international equities². The investment option has a medium to high level of volatility.

	Stepping Stones Growth 0-50
Total value of the investment option	\$55,341,831
Number of investors in the investment option	2,299
The date the investment option started	6 September 2016

What are the risks of investing?

Risk indicator for the Stepping Stones Growth 0-50 years old investment option:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the investment option's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way. To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at <https://www.generatewealth.co.nz/survey>. Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of an investment option's future performance. The risk indicator is based on the returns data for the last five years. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future investment updates.

See the product disclosure statement (PDS) for more information about the risks associated with investing in this investment option.

How has the investment option performed?

	Past year
Annual return (after deductions for charges and tax)	22.49%
Annual return (after deductions for charges but before tax)	23.87%
Market index annual return (reflects no deduction for charges and tax)	17.66%

The market index return reflects a composite of benchmark index returns, weighted for the investment option's target asset allocation, being the investment option's relevant benchmark since inception. All of the share market benchmark indices used include dividends but do not include imputation credits.

Additional information about the market index is available in the SIPO on the register at business.govt.nz/disclose.

Annual return graph

This shows the return after fund charges and tax for each year ending 31 March since the investment option started. The last bar shows the average annual return since the investment option started, up to 30 June 2021.

Important: This does not tell you how the investment option will perform in the future. Returns in this graph are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower. Benchmark returns in the graph are before the deduction of tax.

What fees are investors charged?

Investors in the Stepping Stones Growth 0-50 years old investment option are charged fund charges. In the year to 31 March 2021 these were:

	% of net asset value
Total fund charges	1.42%
Which are made up of:	
Total management and administration charges including:	
Manager's basic fee	1.00%
Other management and administration charges ³	0.42%
Total performance based fees	0.00%
Other charges	\$ amount per investor
Membership Fee ⁴	\$36.00 per year

A portion of the 'other management and administration charges' relate to management, performance and administration charges from investments in underlying funds. Some of these calculations are based on estimates.

Investors are not currently charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the PDS for more information about fees.

Small differences in fees and charges can have a big impact on your investment over the long term.

Example of how this applies to an investor

Hannah had \$10,000 in the investment option at the start of the year and did not make any further contributions. At the end of the year, Hannah received a return after fund charges were deducted of \$2,249 (that is 22.49% of her initial \$10,000). Hannah also paid \$36 in other charges. This gives Hannah a total return after tax of \$2,213 for the year.

Further information

You can also obtain this information, the PDS for the Generate KiwiSaver Scheme, and some additional information from the offer register at business.govt.nz/disclose.

Notes

1. The Manager takes a broad view of what constitutes infrastructure assets. See the SIPO for further information.
2. International equities are predominantly investments in underlying funds. They also include an investment in Berkshire Hathaway Inc. and investments in other large capitalisation international stocks.
3. For some of the underlying funds that the fund invests into estimates were used when deriving annual management fees, performance-based fees and/or operating costs. Where otherwise not available the management fees and operating expenses were calculated by either dividing the management fees and other operating costs from the most recent period by the average NAV for the same period. Where otherwise not available the performance fees were estimated using the same performance criteria as that stated by the administrators of the underlying funds and applied to the performance over the most recent financial year.
4. Membership fees are the monthly fixed dollar charges for membership in the Generate KiwiSaver Scheme. You will pay only \$3 each month even if you are invested in multiple funds within the Generate KiwiSaver Scheme.
5. 'Cash and cash equivalents' includes the value of foreign exchange hedging derivatives related to the fund's off-shore investments.
6. Listed Property includes investments in aged care companies.
7. For any unlisted property and infrastructure investments, the Manager needs approval from the Supervisor prior to investment.
