

Fund Update for the Generate KiwiSaver Scheme Conservative Fund

also applies to: 'life stages' 65+ years old investment option and
'life stages growth' 65+ years old investment option

30 June 2017

This fund update was first made publicly available on 28 July 2017.

What is the purpose of this update?

This document tells you how the Conservative Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. Generate Investment Management Ltd prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

The objective of the Conservative Fund is to provide a conservative investment return through investment in a portfolio of actively managed cash, fixed interest, property (including aged care) and infrastructure assets. The fund has a low to medium level of volatility.

| | Conservative Fund | Life Stages 65+ | Life Stages Growth 65+ |
|---------------------------------|-------------------|-----------------|------------------------|
| Total value of the fund | \$91,216,091 | \$956,819 | \$0 |
| Number of investors in the fund | 8425 | 44 | 0 |
| The date the fund started | 16 April 2013 | 16 April 2013 | 6 September 2016 |

What are the risks of investing?

Risk indicator for the Conservative Fund:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way. To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at <https://www.generatekiwisaver.co.nz/survey>. Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the last five years. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the product disclosure statement (PDS) for more information about the risks associated with investing in this fund.

How has the fund performed?

| | Past year |
|--|-----------|
| Annual return (after deductions for charges and tax) | 1.22% |
| Annual return (after deductions for charges but before tax) | 1.86% |
| Market index annual return (reflects no deduction for charges and tax) | 5.86% |

The market index return reflects a composite of benchmark index returns, weighted for the fund's target asset allocation. The benchmark indices used for each asset class are defined in the Statement of Investment Policy and Objectives (SIPO).

Additional information about the market index is available in the SIPO on the register at business.govt.nz/disclose.

Annual return graph

This shows the return after fund charges and tax for each year ending 31 March since the fund started. The last bar shows the average annual return since the fund started, up to 30 June 2017.

Important: This does not tell you how the fund will perform in the future. Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

What fees are investors charged?

Investors in the Conservative Fund are charged fund charges. In the year to 31 March 2017 these were:

| | % of net asset value |
|--|------------------------|
| Total fund charges | 1.26% |
| Which are made up of: | |
| Total management and administration charges including: | |
| Manager's basic fee | 1.00% |
| Other management and administration charges | 0.26% |
| Total performance based fees | 0.00% |
| Other charges | \$ amount per investor |
| Membership Fee ² | \$36.00 per year |

Investors are not currently charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the PDS for more information about fees.

Small differences in fees and charges can have a big impact on your investment over the long term.

Example of how this applies to an investor

Hannah had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Hannah received a return after fund charges were deducted of \$122 (that is 1.22% of her initial \$10,000). Hannah also paid \$36 in other charges. This gives Hannah a total return after tax of \$86 for the year.

Further information

You can also obtain this information, the PDS for the Generate KiwiSaver Scheme, and some additional information from the offer register at business.govt.nz/disclose.

Notes

1. Market index returns as well as the fund's actual returns have been used to calculate the risk indicator. Market index returns were used for the data prior to the Fund's inception on 16 April 2013 as they are an appropriate proxy for the fund's actual returns. As a result of these returns being used, the risk indicator may provide a less reliable indicator of the potential future volatility of the fund.
2. Membership fees are the monthly fixed dollar charges for membership in the Generate KiwiSaver scheme. You will pay only \$3 each month even if you are invested in multiple funds within the Generate KiwiSaver Scheme.
3. 'Cash and cash equivalents' includes the value of foreign exchange hedging derivatives related to the fund's off-shore investments and the value of an interest rate swap used as a hedge for the fund's fixed income investments.
4. Listed Property includes investments in aged care companies.
